

**Thank you for buying
The Original Bird Whistles!**

With little effort and patience you will be able to imitate birds, animals, funny sounds or just whistle loud at football games!

Instructions:

Put it into your mouth with the half round part pointed inside and press it with your tongue against your palate.

You should wait a bit until the Whistle is soft and fits right. This will allow a longer usage and a thankful audience.

Move the whistle a bit forward the teeth with the tongue.

While holding it with the tongue – you can imitate sounds by blowing air through it.

Whistle tweets by saying the words:
SHEEP. SHOP. CHOOSE. TUBE.

Try to start with imitation of a car sound (as you did when you were a kid): “sh-sh-sh”.
Now add a “b” and you have a funny bird sound: “Bsh-Bsh-Bsh”.

Now try other sounds: “Bzh-Bzh-Bzh”, “Tschz-Tschz-Tschz”, “Whit-Whit-Whit” ☺

Move your lips for variations & use your Imagination!

Let it dry after use.

Have fun with your new instrument!

Adult supervision is recommended

Any questions are welcome.
